The Washington Merry-Go-Round

By Drew Pearson

Truman Goes Slow

TALKING to a close friend last week, President Truman confided that he did not intend to make any cabinet changes before Jan. 20, at which time several cabinet members would go.

However, Mr. Truman, who knows what it is to be broke, said he didn't want any cabinet member to appear to be fired, for fear it might hurt his future earning power.

"And I'm not going to throw them out while the newspapers are sniping at me," he added. "When the newspapers stop picking my cabinet for me, I'll pick my own."

News Omission

U. S. newspapers outside New York and Washington sometimes get mentally kicked around by their readers through no fault of their own. They are at the mercy of the press associations which frequently take their lead from the big Washington-New York dailies.

Here is a case in point.

Front-page news in the big metropolitan dailies recently was the report of Ex-Senator D. Worth Clark of Idaho urging that several billion dollars be dumped into China. Clark had been sent to China by Republican members of the senate appropriations committee and almost every newspaper front-paged his demand for Chinese aid.

However, not one paper carried the very important fact that Ex-Senator Clark was a former partner in a law firm which was paid $100,000 by T. V. Soong, brother-in-law of Generalissimo Chiang Kai-shek, for the express purpose of getting aid for China.

Qualified Public Servant

Mayor John F. Davis of Reading, Pa., tells this story on himself.

"Shortly after I was elected, I began to learn about the qualifications for government office. A friend dropped in and suggested that I give a job to George Schultze down in the 6th ward.

" 'What can he do?' I asked.

" 'Nothing,' replied my friend.

" 'Then let's hire him right away,' I said. 'We won't have to break him in'."

• • •

Doctor Shortage

Unassuming Oscar Ewing, the federal security administrator, has been doing some quiet digging on the all-important problem of getting more U. S. doctors, dentists and nurses.

"Even today, three years after the end of the war," says Ewing, "there are large sections of the country woefully lacking in doctors."

Meanwhile, medical schools are overcrowded and medical faculties are so understaffed that, if new medical schools were started, it would be difficult to find enough professors to staff them.

Ewing is working on a plan for federal loans to medical students as one way to ease the doctor shortage. Local banks would grant tuition-loans to qualified students, with the government guaranteeing the loans 100 per cent.

He is also hoping that the bill introduced by Senator Thomas of Utah will pass the next congress giving government subsidies to medical schools based on the number of students they turn out.

Truman's Jaw

Comments W. F. Bond, Mississippi's commissioner of public welfare: "Samson slew 1,000 Philistines with the jawbone of an ass—a record which stood for over 6,000 years, and was not broken until November, when Harry Truman with his own jawbone slew over 21,000,000 Republicans."

Labor Diplomat

President Truman's advisers are seriously considering the appointment of a labor leader as assistant secretary of state.

Hitherto, high state department jobs have usually gone to Wall streeters, as for instance the present Undersecretary of State Robert Lovett, a big investment banker, and Assistant Secretary Charles Saltzman, former vice president of the New York Stock exchange.

However, most European governments are now dominated by labor. In fact, the moderate labor leaders of Western Europe are considered the best bulwark against Russia, and it is vital that U. S. diplomats understand their point of view.

That's why a labor leader may be among the new state department executives, also why Irving Brown, the international labor office representative in Europe, may be appointed U. S. ambassador to a western European country. Brown's quiet work among European labor leaders has done more to combat Sovietism than a whole crew of the old fashioned U. S. diplomats combined.

Turkey Dinner Given For 42 Children Tuesday

Forty-two grammar school children were the guests of Kiwanis members Tuesday noon at a turkey dinner and Christmas party. Clarence Nelson was chairman of the affair with Laurance Hill serving as chairman of the day.

Santa Claus was present to the children, the part being taken by Mark Purmort who played Santa Claus twenty years ago to the day at the same party. He stated he expects to play it twenty years from now oo.

Games were played by the group with Ray Bishop and Fred Jones, Sr., losing out to the children in a balloon blowing contest, and Guy Farley winning a jack set.

Christmas carol singing by the group was led by C. P. Klassen accompanied by Mrs. David Sanders. A gift of appreciation was then presented by Mrs. Sanders by the group, followed by a solo by Ruth Cousins.

Dinner was served to 84, and marked the resumption of the annual dinner given for the children by the Campbell Kiwanis group. Serving on the committee in charge of the event were L. J. Hill, chairman, R. B. Bishop, Milton Nelson, Tony Ferro, Ira Grim and Henry Jewel.

Speaker for the next meeting will be the Rev. Laurence Osborne.

Painting Shop Open In Town

A new business makes its entrance in the Campbell business scene with the establishment of an Auto Body and Painting shop at 142 Railroad avenue. The new plant will be operated by Ralph Guthrie, who has his own business in San Jose for 12 years in the same line, and Glenn Walton.

Walton is well known in the Campbell area having been the former operator of the Campbell Red and White store, and also having been in the real estate business here.

The new business opened this week.

House Stuck In The Middle Of The Road

A house upset traffic on Campbell avenue Monday morning. Moving leisurely down Campbell avenue, it attempted to make the turn into Central avenue, and got stuck in the middle. Much pulling and hauling resulted before it was finally negotiated around the corner — while pedestrians walked around it as though a house in the road were a common occurrence

A Mobilhome, it was being moved by Howard L. Kelly Co., and was destined for Harrison avenue.

Santa Finally Appears In Campbell Streets

Santa Claus made his long delayed appearance Saturday night in the streets of Campbell, and was almost overwhelmed by the hordes of children that followed along his trail, eager to see Santa and tell him that they had been good children.

Although Old St. Nick's appearance had been postponed on two occasions because of rain, there were mighty few children in Campbell who missed seeing him Saturday as he made the rounds from store to store. Santa's bag of candy was nearly empty when he finished making his rounds. His appearance was sponsored by the Merchants Committee of the Campbell Chamber of Commerce headed by Frank Accardi.

SAN JOSE SHOWS PROFIT

Campbell Community Chest Fails to Reach Quota; Short $2500 for This Community

The Campbell Community Chest goal of $6000 has not been reached, according to J Dahl, campaign manager. Only $3500 has been turned in to date by the tireless workers who have run up against an unusual amount of refusals this year while soliciting contributions for their own community welfare project.

Some complaints have been received that they have not yea been solicited, but it is hoped that those who wish to donate and who have not yet been contacted, will get in touch with Joe Dahl, Ray Fish or Mrs. H. F. Cousins. Any one of the three will be glad to receive your contribution at any time.

The community has expanded this last year and with the expansion has come the greater need for funds. All of the funds collected in this community stay right here in the community and go to benefit our own boys and girls.

For those persons who might have missed the printing of the budget earlier, we reprint it in order that all of the money contributed goes right here in Campbell.

Boy Scouts	$2000
Coordinating Council	$1000
Milk Fund, which is divided between five local schools, Campbell, Moorpark, San Tomas, Cambrian and Moreland,	$1300
Library	$500
Scout hall, upkeep	$100
Campaigh Expenses	$250

The balance is divided between Girl Scouts, Camp Fire Girls and YMCA.

All of these projects are worthy ones and do so much for your boys and girls that surely no one can refuse them a small cntribution to keep them going during the next year. Dahl stated that the campaign will remain going until the last donation has been received the last donation has been received.

Old-Fashioned Toys Displayed Under Xmas Tree

An old-fashioned Christmas card has been depicted in the living room of the R. B. Edwards home at 744 E. Campbell avenue. A glimpse through their front window reveals a Christmas tree decorated with strings of popcorn. Under the tree is an array of old-fashioned toys flanked by antique furniture. The whole scene is framed with lighted Christmas lights on the outside of the window.

San Tomas Club Holds Christmas Party Wednesday

Christmas greetings were exchanged Wednesday evening as members of the San Tomas Improvement Club gathered in the schoolhouse for their annual Christmas party for members and their children.

Christmas carol singing was a feature of the evening as well as the eventful arrival of Santa Claus who welcomed all the children as he passed out popcorn balls and stockings full of candy.

Members of the club who made up the stocking and popcorn balls included Mrs. Leslie Orford, the chairman; Mrs. J. E. Schneider, Mrs. Frank Welsch, Mrs. M. B. Parker, Mrs. A. M. Troyer, Mrs. V. Epperson, Mrs. Don Lukehart, Mrs. H. M. Givens, Mrs. B. Favorito.

As some of the candy and oranges were left over, the oranges were donated to the Salvation Army and the candy turned over to the San Tomas Cub Scouts who are fashioning stockings to donate to the County hospital children.

Reward Out For Xmas Tree Light Thieves

Mrs. Eva Grattan of 80 Harrison street has offered a reward to information leading to the apprehension of the vandals who were responsible for stripping the Christmas tree in front of her home of the strings of lights with which it was decorated.

The tree, which is over 40 feet tall, was fully lighted and was a beautiful addition to the Christmas scenery until unprincipled persons deliberately pulled off the light strings and left the tree bare.

Troop 31 Holds Christmas Party

Singing, present and fun was the theme of the evening on Dec. 21 when Troop 31 traveled to Palo Alto to join with Troop 49 in their annual Christmas party at the Palo Alto Community Center. For the second year in a row the two troops have met together to celebrate Christmas in a Scouting fashion. Scoutmaster Frank Livermore of Troop 49 welcomed the Campbell Troop and games and events of scouting skill followed. Bill Cockey, life scout of Troop 31, won the knot tying contest to become champion knot-tyer of the two groups. After group singing, presents were exchanged and refreshments were served. All old members of the Troop are invited down to see the improvements in the Troop and talk over old times. Events for the month of January are highlighted by the annual pot luck dinner of the parents and scouts.

Methodist Church Purchases New Home For Pastor

It was announced recently that the Campbell First Methodist Church had recently purchased a new home at 734 E. Campbell avenue to be used as the church parsonage. The new home is composed of six rooms and is located in the new Campbell Garden tract.

The Rev. L. J. Osborne, present pastor of the Methodist church, is expected to move his family into the new home after the Christmas holidays, after which the old parsonage, which is located next to the church, will be turned into Sunday school classrooms and work rooms. Expansion of church facilities is needed at this time to take care of the increased church membership, and high building costs at this time prevent the erection of new church rooms.

Strike Insurance Is Planned For California Farmers

A plan for insuring farmers against loss from strikes or other labor disturbances which damage or prevent marketing of crops was announced today by the Associated Farmers of California.

Announcement of the projected insurance plan, first of its kind to be devised in the United States, was made following issuance of a permit to solicit applications for the policy by the State Insurance Commissioner last Tuesday.

Basic coverage under the policy would cover the farmer's actual production costs only and would not extend to loss of profits. Insurance against loss during transportation or processing of a specific crop would be provided by "endorsements," with added premiums to the basic policies. Only farmers maintaining good wages or working conditions for their labor will be accepted for insurance.

The policies are to be written through Agricultural Inter-insurance Exchange, a non-profit organization of farmers, and will provide indemnity for all charges and expenses incidental to the production of any crop. These charges and expenses, according to spokesmen for the state-wide farm organization, is not limited to, but will include such items as "depreciation, taxes, interest, rent and salaries of working partners, which are paid, incurred or accrued in connection with the production of the crop."

"Labor disturbances" are defined in the policy to include the following, if incident to a labor dispute "not precipitated by collusion with the insured":

1. Any act or refusal to act by employees engaged for work to be performed on the premises described in the policy.

2. Any act by employes or third persons which directly destroys or damages physical property on or adjacent to the premises described in the policy.

3. Any interference with employes or prospective employes, by intimidation or otherwise.

Aside from the initial coverage, the policy also includes:

1. Protection against loss resulting from failure of transportation facilities between the grower's premises and the ultimate market within the State of California;

2. Protection to the farmer against loss from labor disturbances at a processing plant such as a cannery, packing houses, or quick-freeze plant.

Each policy will contain the following conditions, among others:

"The insured shall use due diligence not to precipitate or provoke any labor disturbance whether by substandard working conditions, substandard wages, or otherwise . . ."

Vets: File Now For Certificates

Veterans planning to take advantage to State educational assistance for the first time in the coming Spring semester are urged by John W. Davis, County Veterans Service Officer to apply now for the certificates of eligibility.

This certificate is the first step in qualifying for State payment of tuition fees, books and supplies and a subsistence allotment of $40 a month, Davis pointed out.

His office at 226 North Market Street, San Jose, will assist eligible veterans (those who are natives of or entered service from California) to complete not only the certificate of eligibility application, but also the separate application for educational assistance which is the next step involved. Veterans should bring with them a copy (both sides) of their discharge.

The advantage of filing early, Davis said, is that the veteran can thus avoid the registration-period rush in processing of his application papers and can be assured of prompt payment of the amounts allowed under the State program.

He added that the certificate of eligibility, once received, can also be used in applying for another State veterans' benefit, the low-interest financing of farms and homes.

Later they will go aboard ship.

This Week in WASHINGTON

With heavy budgetary expenditures coming up before the next congress for national defense, which includes the Marshall plan and other foreign aid, the word has gone out to governmental agencies from President Truman's executive department to slash expenditures to the bone. As a matter of fact, for the 1950 fiscal year which starts next July 1, the order has been that governmental agencies must cut to absorb the pay increases for personnel which was granted by the 80th congress.

It will be remembered that most federal agencies received a $330 annual pay increase for federal workers with a flat $450 annual boost being given the post office department at the hands of the 80th congress.

The postoffice department, however, is one department which is expected to be given additional funds to meet its pay raises. This department runs in the red anyway and although the department annually asks congress to give it sufficient revenues to put it on a paying basis, the congress, looking to the folks back home who might kick about additional postage costs in either first, second or third class mails, merely forks over deficits each year in the form of subsidies to the department.

Senator William E. Jenner (R., (Ind.) has gathered a lot of evidence in election investigations which he likely will never use. Senator Jenner is chairman of a sub-committee of the senate privileges and elections committee and has been investigating senatorial elections in West Virginia, Tennessee, Texas, Oklahoma and other states. The GOP plan was that if Democrats won in these states, the Republican majority in the senate would question their election and hold up the swearing-in process. However, the Democratic senatorial candidates won not only in these states but in enough other states to give the Democrats a majority in the senate so now the possibility of any long drawnout election contest against these Democrats is virtually eliminated and party reorganization of the senate will likely take place on a cut-and-dried basis, but with the Democrats in command.

* * *

There is every likelihood that the next congress early on its agenda will take up extension of the reciprocal trade agreements act on a three-year basis as was done prior to the action of the 80th congress. The last congress made an extension of only one year and hemmed the power of the President to such an extent that his action was dependent only upon congressional approval. Most trade organizations and lobbying or pressure groups favor the extension of the reciprocal trade act as originally proposed but strangely enough while large business organizations are for the extension, some of the smaller business trade groups are against, or split on their stand toward extension.

* * *

Another revision of existing law likely to be taken up early in the session will be that of the displaced persons act. This act was the only law of the 80th congress which Governor Thomas E. Dewey the GOP presidential candidate asked to be revised at the hands of the Republican majority. Mainly through the opposition of Senator Chapman Revercomb (R., W. Va.), however, no revision was forthcoming and Senator Revercomb was defeated for reelection. Some Democratic leaders claim the act as now constituted discriminates against Catholics and Jews and other European nationals who fled before the Russians to concentration camps.

* * *

There is considerable discussion in Washington this week over possible congressional action toward revision of the charter of the United Nations in some respects. While congressional action cannot actually revise the charter, a congressional resolution placed before the United Nations body to be voted upon by that organization might have standing with members and delegates. The American Legion and the Amvets have adopted resolutions urging a modified use of the veto power, used so consistently by Russia, and an arms production limitation, and the Legion is demanding adoption of the United States formula for atom control and the creation of a world police force under the Security Council.

The American Federation of Labor adopted a resolution asking the UN social and economic council to introduce a measure making it a crime against international law for any government to have a fifth column in a country with which it is at peace.

G. I. Insurance Dividends 'Shell Game' Uncovered

Swindlers, who sometimes claim to represent a veterans newspaper, have been attempting to sell veterans forms for the purpose of collecting money paid into the government insurance fund, Veterans Administration officials here reported today.

VA officials emphasized that dividends will not be payable on GI insurance for a number of months and that forms for that purpose will be supplied by the government at that time.

There is no expense to the veteran in applying for any benefit administered by the VA.

Veterans are urged to notify immediately the nearest VA office, the Better Business Bureau or the police should a swindler attempt to sell them forms to obtain VA administered benefits.

Xmas Seal Sale Has 71 Per Cent Of Total Needed

Returns so far from the 1948 Christmas Seal Sale (through the end of last week) total $36,184.68, with only a few days remaining until the official close of the sale on Christmas Day, Dr. C. Gerald Scarborough annouced yesterday.

The sum represents 71 per cent of the expected total of $50,000, which is the minimum necessary to carry out the 1949 tuberculosis prevention and control program of the Santa Clara County Tuberculosis Association, Scarborough explained.

"We hope to reach our quota by Christmas," he added. "We know that many county residents have delayed answering their Seal Sale letters because they have been busy with other Christmas preparations. But we urge all who have not yet responded to get the checks in the mail at their earliest convenience.

"We are sincerely grateful to everyone who has answered our appeal. Their prompt response means that they want the activities of the tuberculosis association to continue, since the association receives its sole support from the sale of Christmas Seals."

Scarborough added that he desired to express his appreciation to the many volunteers and to community groups who have helped and especially to all local community chairmen who have helped and especially to all local chairmen who have been active in making the 1948 Christmas Seal Sale such a success.

Spartan Team To Fly To Utah For Four Games

Holding an even record for the young season, the San Jose State cagers took to the airlanes last week on a four-game trip to Utah. The Spartans meet Brigham Young University Friday and Saturday in Provo, then moved to Logan for Monday and Tuesday games with Utah State.

The Spartans have shown good form in only one game in their six contests thus far and expect a rough reception from the Cougars and Aggies.

However, Coach Walt McPherson and his 10-man traveling squad hope for the kind of basketball which enabled the Spartans to score a stunning 24-point victory over the powerful Stewart Chevrolet quint. A return to the same form would give San Jose a victorious trip.

Leading the Spartan scorers as they broke even in their first six games were Sophomore Forward Don McCaslin, with 76 points, and veteran Center Stu Inman, with 72,

Social Security Reports Must Be Accurate To Pay

"Wages for approximately 40 million social security account number holders are reported each quarter," Mr. John J. Cassidy, Manager of the San Jose Social Security Office said today. Some of the reports contain incorrect names or account numbers.

Most of these are corrected by contact with the reporting employer, at a cost of time and money to the employer and the Government. Cassidy pointed out that correct reporting by the employer helps establish a correct wage record which in turn assures the old people, widows, and children of their full benefits under the social security law.

Social security reporting affects two groups of people, the employer and the employee. Cassidy said that the employer should copy the name and number direct from the worker's card into his records. By reporting the name and number exactly as shown it agrees with official records and a correct account can be maintained. At the same time Cassidy cautioned the worker to show his account number card to each employer.

Every few days some person filing a claim in the San Jose Office disagrees with his posted wage record. Workers who have reason to believe their wage record is incorrect should contact the San Jose Office and check up while checking can be done. Under ordinary circumstances social security returns are correctable for the past four years only. Cassidy said that his office will be glad to help in correcting an employee's social security record whenever an error is found.

Withholding Form Not A Tax Report; Use Form 1040A

The Employee's Withholding Statement cannot be used as a tax return on 1948 income Collector of Inernal Revenue James G. Smyth of the First California District said today.

Under the provisions of the new income tax laws, passed this year by Congress, a new tax form, the 1040A, must be used by persons who wish the Government to determine the tax. When this return is filed the withholding statement, Form W-2, must be securely attached to the 1040A.

Collector Smyth said that hundreds of wage earners are sending in Form W-2's, prepared as a tax return. These forms must be sent back to the taxpayer. They cannot be accepted by the Internal Revenue as an income tax return.

The Collector also advised all persons required to file an income tax return on 1948 earnings, to wait until after January 1, 1949, before filing.

The first recorded planting of Muscat grapes was in 1873 near Fresno, when 25 acres were set out.

Campbell High Students Make Christmas Gifts

Campbell union high school students in the arts and crafts class created many beautiful and useful presents for their friends and families through application of their new knowledge.

Hot plate mats made from composition board were decorated with designs of bright colors, and colored trimming or designs were also used on wooden trays, plates, jewel boxes, ash trays and candy dishes, all of which cost about $1 to make and about $6 to buy the completed article.

The design to be used was first drawn on paper and had to be approved before it was applied to the object, no tracing work or borrowed designs being allowed.

Mrs. Marion Winston is instructor of the class which numbered 22 students during the present quarter. It is expected that a larger number will be enrolled next semester.

Christmas Eve Services To Be Held By Churches

At the Methodist Church next Sunday at the 11 o'clock service Rev. L. J. Osborne will preach on the theme, "Keeping the Christmas Spirit." The church choir will sing the Christmas anthem by Protheroe, "O Come All Ye Faithful."

The members of the Methodist church will join with the Congregational Church in the Christmas Eve service Friday evening at 11 p.m., at the Congregational Church.

Champ SJS Water Polo Team Ends Excellent Season

San Jose State's AAU junior water polo champions have completed the finest season in the history of the sport at the Washington Square school.

Including the victories in the national meet, the Spartan mermen won twelve and tied one while losing only three games.

Coach Charley Walker's team split even in two games with the powerful Olympic Club; won two out of three from Stanford; won two and tied one with California; split even in a two-game series with College of The Pacific; captured two games each from Cal Poly and Cal Aggies and won single games from Occidental and Cal Tech.

The Spartans averaged nearly nine goals per game as they gathered 138 points. The combined opposition was held to 96 points. Bob Keeler led the scorers with 66 goals in 15 games, an alltime record for Spartan poloists. Varsity awards also went to Fred Hanssen, Norm Keeler, Capt. Howard Ruweler, Dave Thompson, Tom Daly, Gene Foley, Al Grass, Geo. Hodgins, Bob Santos and Hugh Wood.

The record of the Walker's Frosh team was even more spectacular. Only a tie against the Olympic Club reserves marred an otherwise perfect record as the Spartan Frosh went unbeaten in 13 games. The Frosh averaged over 10 goals per game in compiling 136 goals while holding opponents to 54. George Haines was the top scorer as he hit the net 47 times, with 11 other players contributing to the point-making.
